QUESTIONNAIRE at Alliance Francaise, Mumbai

First Name and Name : Joseph Benedict Martins Gender : Male Age : 72+ ¹⁹⁴¹
 Nationality : Indian Date : 20 August 2013
 E-mail : josephbmartins @ rediffmail . com

1) DOES GOD EXIST ? Define God first, then discuss.

Religion mongers make God-idols with moneyboxes in front of them & priests around their places of worship, performing sermons & rituals to be patronised & purchased, customs etc. Religion is the work of the devil meant to keep their flocks away from God. Indoctrination, Brainwashing, influencing, mind conditioning is continuous from birth to keep you religious. People live isolated together in society, clinging to their religions & priests & idols & customs. Pride & hatred are inculcated in the flocks. God is a spirit who forms the whole universe. In God we live & move & have our being. Be still & know God - I am that I am. With God you are in the heavenly state of peace, joy & vitality. Spirituality is the practice to get nearer to God, to be in union with God (yoga), to be perfect as God is. With God you fool all.

2) HOW WOULD YOU DESCRIBE THIS ERA ?

This era is in transit through eternity, infinity. Communication has facilitated this. In the previous centuries selfimprovement, reading good books, knowing practices to get nearer to God was impossible. In the middle ages > 1 million were killed for refusing to believe that by drinking wine liquor priests could make the Creator give his body & blood to their flocks to eat & excrete. French Revolution killed priests & their allies the royalty to put an end to these murders. Liberty, Equality, Fraternity became ideals for the organised powers to practice. But these are chimeras presently. We need education not academies.

3) HOW DO YOU SEE THE FUTURE ?

As long as the organised powers of state, religion, media, society are controlling the people there will be little progress in human & social relations. People will be subjugated to the powers & do what the powers want for their benefit without regard for the interests of the people. We have academic education based on memory. We do not have extended education which develops ability to think, reason, discuss, change & improve character & wisdom (insight, intuition, understanding, maturity etc). We do not have libraries for self improvement, spirituality, practices etc.

4) ARE YOU HAPPY ? *yes. But I live in society & get affected by what others do even if I am detached.*

5) IS SEXUALITY IMPORTANT ? *yes. It is part of Nature*

6) WHO AM I ?

I am who I am. I am on the path to eternity, infinity. I reap what I sow. What I do has results which I will have to experience. If I refute this & purchase sacramental rituals & go to priests & idols I will get degraded & debased & have that nature in eternal life, not Perfection, Heaven. "What am I doing to make my life better" makes me who I am. I have spirit, mind, heart, flesh, nerves, wisdom, organic life, sublimation of all. I have to develop all to be happy, to be human in heaven.

Please circulate. I will send you articles from my books on better living which religions hate & hide from the world.
